

THE AWARD WINNING TAILGATE LIFTER

LycoLoader is a manually operated tailgate lifting device and is designed and made in Australia, making light work of your heaviest cargo with the power to lift up to 300kg.

1. QUALITY LIFTING SYSTEM

High quality materials expertly manufactured in Australia to deliver labour saving costs and increased efficiency.

2. EFFORTLESS OPERATION

Using the supplied crank lifting the Lyco Loader tray simple, fast and efficient.

3. EFFICIENT LOADING DESIGN

Unlike larger lifting devices, Lyco Loader doesn't take up valuable tray space. Replacing your tailgate (side or rear), your payload capacity isn't compromised.

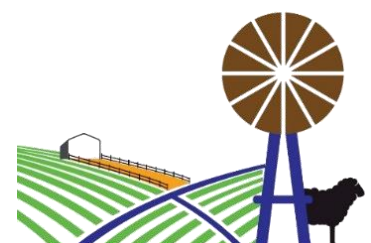

4. EASY & FAST INSTALLATION

With minimal space required, Lyco Loader can be fitted to most trays that are 1695mm or wider by a dealer, or by yourself in around an hour.

KEY FEATURES

- Weighs only 50kgs
- 300kg Lift Capacity
- Manual Operation – No Hydraulics or Electrics
